## Wrangler Headbail Gates

The Wrangler are specialists in cattle handling equipment and have been making safe, easy equipment for close to 20 years. The headbail range has something to suit all operations from dairy and lifestyle, to beef. All are strong, affordable, and durable and easy to operate.

- ✓ Hot-dip galvanised inside & out
- ✓ Left or right opening, depending how it's hung
- ✓ Pin latch & plate allows headbail to be operated as a gate
- ✓ Top and side bars prevent other animals from pushing through from behind while it's being used as a gate
- ✓ Accommodate various sizes of animals by setting trapping and non-trapping yokes at either of two positions
- ✓ Round yoke for cow comfort
- ✓ Shaped yoke to reduce up and down head movement
- ✓ Headbail locked from behind by pulling rope

◀ One person job

### Headbail Gate

Perfect for dairy or lifestyle properties. Mount on gudgeons at the end of your vet race.

#### Dimensions

Outside Frame:	800mm
Inside Pipe Frame	710mm
Height	1300mm

### Heavy Duty Headbail

All the features of the Headbail Gate + side release lever, and extra strong thick-walled steel, the Heavy Duty Headbail is tough to take it.

### Also available:

#### Standard Headbail

For properties where only one animal 18mth+ is being treated. Great price.

#### Walk Thru Headbail

Retro fit upgrade for existing Wranglers. Lever releases both sides for cow to exit through headbail.

#### Race Wrangler

Crush for treating dairy cows. Especially good for hoof trimming, calving, and caesarians.
